2. Integrated coaching for XII class students.
3. Foreign Tour

At last I wish all the parents and guidance must think about the future of their children and guide us to shape the future generation. Always I stress for three things for the proper education of the students Parent, Teacher and Managements. If these three people keep co-operation and intimate the problem of the child, we can improve the students Education. I also request to local administration those have responsibility must think about the quality education of this Area.

Today personally I am happy that two students of this school who are with us to encourage and make the celebration successful. I wish by their brief speech they will guide the young generation, once again thanks to the honorable Chief Guest who accepted our request and told that it is my home function and no need to be brother, I will be in the function. That feels us so proud really. This shows your greatness sir. My dear parents I am thankful of being present in the function. I need not to take more time because are all waiting to enjoy the cultural program of the children once again thanks you all.
